

# Iran's New TERROR Tactic? Israel Hit With TONS Of Black Tar | Watchman Newscast

On today's Watchman Newscast, host Erick Stakelbeck breaks down reports that the massive oil spill that has devastated Israel's coastline was an intentional act of environmental terrorism by Iran. New evidence reveals that a vessel left Iran in January and eventually dumped hundreds of tons of crude oil off the coast of Israel before returning to Iran, where it is currently docked. The spill has shut down Israel's Mediterranean beaches, harmed wildlife and caused what some Israeli government officials are calling the worst environmental disaster in Israel's history. Is this a devastating new terror tactic and could it come to a beach near you? [#Israel](#) [#Iran](#) [#EnvironmentalTerrorism](#)

## THESE are words that got a TN principal suspended | Glenn Beck

Memphis-area high school principal Barton Thorne was suspended by Shelby County School administrators in January after speaking with his students about the dangers of cancel culture. "I want you to understand the problem that's going to face you and your generation if there is no longer a marketplace, a free exchange

of ideas,” he told them, urging the students to engage in respectful conversations with those who hold differing opinions. Glenn reads the rest of Thorne’s words, and then he discusses with Thorne’s attorney, Daniel Suhr from the Liberty Justice Center, about how the district administrators can use their IMMENSE mistake as a teaching moment for the students under their charge.

## **Great Reset’s ESG ‘Credit Scores’**

# could affect **EVERY** aspect of your life

Glenn explains how The Great Reset may soon influence EVERY financial aspect of your life — from car loans, business loans, mortgages, and more. It's all thanks to the partnership between America's biggest banks, the federal government, and global groups like the World Economic Forum...and it has already begun: The Heartland Institute's Justin Haskins describes how Merrill Lynch now assigns ESG credit scores for customers. It may not affect you yet. But soon, a low score — based on things like products you buy or how much electricity you use — could SIGNIFICANTLY impact your life.
