Great Reset's ESG 'Credit Scores' could affect EVERY aspect of your life

Glenn explains how The Great Reset may soon influence EVERY financial aspect of your life — from car loans, business loans, mortgages, and more. It's all thanks to the partnership between America's biggest banks, the federal government, and global groups like the World Economic Forum...and it has already begun: The Heartland Institute's Justin Haskins describes how Merrill Lynch now assigns ESG credit scores for customers. It may not affect you yet. But soon, a low score — based on things like products you buy or how much electricity you use — could SIGNIFICANTLY impact your life.

Finance Fascists: The Credit Chokehold That Will Bankrupt America | Glenn TV | Ep 92

“What’s your climate credit score?” That’s a question Americans may have to answer if the green global elites get their way. While the media has distracted us with Orange Man Bad! and Russia, Russia, Russia!, the Left has been busy working on the fundamental transformation of America with a primary pressure point —

YOUR money through YOUR bank. Democrats, forgetting the words of MLK, like to group people into categories. They judge you based on what skin color you have, your religion, occupation, your ideology, and now ... your carbon footprint. Glenn exposes how they're now planning not only to categorize you, but to give you a score. It'll determine everything for you: whether you can buy a home, get a new car, open a business ... EVERYTHING. And if you don't bend the knee? You'll be blacklisted. But this isn't some far-off conspiracy theory. Multiple big U.S. banks are part of a private U.S. financial group enacting these policies now. It's here, and we're ALL at risk. [#financefascists](#) [#glennbeck](#) [#blazetv](#)
