

# Iran's New TERROR Tactic? Israel Hit With TONS Of Black Tar | Watchman Newscast

On today's Watchman Newscast, host Erick Stakelbeck breaks down reports that the massive oil spill that has devastated Israel's coastline was an intentional act of environmental terrorism by Iran. New evidence reveals that a vessel left Iran in January and eventually dumped hundreds of tons of crude oil off the coast of Israel before returning to Iran, where it is currently docked. The spill has shut down Israel's Mediterranean beaches, harmed wildlife and caused what some Israeli government officials are calling the worst environmental disaster in Israel's history. Is this a devastating new terror tactic and could it come to a beach near you? [#Israel](#) [#Iran](#) [#EnvironmentalTerrorism](#)

## THESE are words that got a TN principal suspended | Glenn Beck

Memphis-area high school principal Barton Thorne was suspended by Shelby County School administrators in January after speaking with his students about the dangers of cancel culture. "I want you to understand the problem that's going to face you and your generation if there is no longer a marketplace, a free exchange

of ideas,” he told them, urging the students to engage in respectful conversations with those who hold differing opinions. Glenn reads the rest of Thorne’s words, and then he discusses with Thorne’s attorney, Daniel Suhr from the Liberty Justice Center, about how the district administrators can use their IMMENSE mistake as a teaching moment for the students under their charge.

## **Finance Fascists: The Credit**

# Chokehold That Will Bankrupt America | Glenn TV | Ep 92

“What’s your climate credit score?” That’s a question Americans may have to answer if the green global elites get their way. While the media has distracted us with Orange Man Bad! and Russia, Russia, Russia!, the Left has been busy working on the fundamental transformation of America with a primary pressure point — YOUR money through YOUR bank. Democrats, forgetting the words of MLK, like to group people into categories. They judge you based on what skin color you have, your religion, occupation, your ideology, and now ... your carbon footprint. Glenn exposes how they’re now planning not only to categorize you, but to give you a score. It’ll determine everything for you: whether you can buy a home, get a new car, open a business ... EVERYTHING. And if you don’t bend the knee? You’ll be blacklisted. But this isn’t some far-off conspiracy theory. Multiple big U.S. banks are part of a private U.S. financial group enacting these policies now. It’s here, and we’re ALL at risk. [#financefascists](#) [#glennbeck](#) [#blazetv](#)
