

# **Did Neanderthals Use Toothpicks?**

## **- Answers News: March 31, 2021**

Stinking mice plague New South Wales and Queensland; Dutch chemist claims to have designed an experiment that proves death enables evolution; Scientists wait to publish new rules expanding fetal research; Astronauts collect three unknown bacteria strains from inside the space station; Canada jails father for refusing to act like his son in a girl; Dawkins claims to oppose ideological bullying of scientists; Palaeoanthropologists find familiar markings on cave teeth . . . and other stories reviewed during this March 31, 2021, broadcast of Answers News.

-----

The wicked man sees it and is angry; he gnashes his teeth and melts away; the desire of the wicked will perish.

-----

Psalm 112:10
